This is the same site--Jordan Downs--that Jane Williams contacted us about. Lily spoke to her. At last night's Exide meeting Jane raised as an example of DTSC not properly overseeing it's clean up contractors.

Deldi,

I spoke with Caleb today. He received a call and a package from a Mr. Frank H. Wilson who has concerns that there is environmental contamination affecting the community in Jordan Downs in Los Angeles. I have the package of information that Mr. Wilson sent and will drop it off with you when you return to the office. This is a community in the I710 corridor. A quick check of EJSCREEN shows a brownfield action nearby but no EPA led Superfund cleanup.

Chuck
